**Physical Form:**

Liquid

**Quantity Within Each Unit Package:**

50.0 milliliters

**Specific Usage Design:**

Used to bond flat parts together

**Minimum Flash Point:**

90.0 degrees celsius

**Special Features:**

Transparent, light liquid; formulated for toughness and impact strength; odor sharp, irritating; product type anaerobic; product name speedbonde (tm) 324 structural adhesive

**Color:**

Amber or yellow

**Material:**

Plastic polyurethane

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535p0
