Physical Form:

Paste

Curing Method:

Air dried

Product Name:

Adhesive

Special Features:

Two component epoxy paste adhesive; color (visual) mixed: pale yellow; pot life (100 gm at 77 degree farinhiet: ca. 100 minutes; bonds a wide variety of metals: ceramics, glass, rubber, rigid plastics and most other materials in common use

Material:

Resin epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
