End Application:

U-2

Physical Form:

Paste

Specific Usage Design:

Terminating fiber optic connectors, bonding led displays, lenses and other optical components

Special Features:

Cure schedule: 18 hours at 25 degrees c, 1 hour at 25 degrees c, or 15 minutes at 90 degrees c., unit weight: 0.10 lbs

Color:

Blue, dark

Material:

Resin epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
