End Application:
U-2
Physical Form:
Paste
Specific Usage Design:
Terminating fiber optic connectors, bonding led displays, lenses and other optical components
Special Features:
Cure schedule: 18 hours at 25 degrees c, 1 hour at 25 degrees c, or 15 minutes at 90 degrees c., unit weight: 0.10 lbs
Color:
Blue, dark
Material:
Resin epoxy
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A535p0
