Physical Form:

Liquid

Quantity Within Each Unit Package:

50.000 milliliters

Specific Usage Design:

Structural adhesive for general purpose industrial bonding applications

Features Provided:

Separate catalyst

Special Features:

Fast fixture time of 9 to 10 minutes; working time of 5 to 6 minutes

Color:

White, water

Material:

Plastic methyl methacrylate

Supplementary Features:

50 milliliter kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
