Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Specific Usage Design:

For general purpose exterior wood bonding applications

Curing Method:

Air dried

Volatile Organic Compound In Grams Per Liter:

5.5

Special Features:

Sandable

Color:

Cream

Material:

Plastic polyvinyl acetate

Supplementary Features:

1 gallon jug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
