**Physical Form:**

Paste

**Specific Usage Design:**

Sealant for electrical/electronic components

**Curing Method:**

Air dried

**Rated Drying Time:**

4.000 hours

**Product Name:**

Ready-to-use electronic grade silicone sealants

**Special Features:**

Cures at room temperature. Non-corrosive to electronic metals including copper and brass. High temp and humidity accelerate the cure process.

**Color:**

White

**Material:**

Silicone

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A535p0
