Physical Form:
Paste
Specific Usage Design:
Sealant for electrical/electronic components
Curing Method:
Air dried
Rated Drying Time:
4.000 hours
Product Name:
Ready-to-use electronic grade silicone sealants
Special Features:
Cures at room temperature. Non-corrosive to electronic metals including copper and brass. High temp and humidity accelerate the cure
process.
Color:
White
Material:
Silicone
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A535p0
