Physical Form:

Paste

Specific Usage Design:

Sealant for electrical/electronic components

Curing Method:

Air dried

Rated Drying Time:

4.000 hours

Product Name:

Ready-to-use electronic grade silicone sealants

Special Features:

Cures at room temperature. Non-corrosive to electronic metals including copper and brass. High temp and humidity accelerate the cure process.

Color:

White

Material:

Silicone

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
