Physical Form:

Liquid and semipaste

Specific Usage Design:

Strengthening/bonding

Curing Method:

Air dried

Minimum Flash Point:

121.0 degrees celsius

Content Within Each Unit Package:

Two 4 ounce bottles, one resin, one hardener

Features Provided:

Hardener

Rated Drying Time:

Between 5.0 minutes and 10.0 minutes

Product Name:

Epoxy, heavy duty

Special Features:

Bonds metal, glss, ceramic, wood, plastics, china, tile, fiberglass, concrete and stone; can be combined with fiberglass cloth for a durable patch

Color:

Clear and amber

Material:

Resin epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
