Physical Form:

Solid

Specific Usage Design:

Attachment of electrical/electronic components to printed circuit boards

Product Name:

General purpose, electrically conductive epoxy adhesive

Special Features:

Reaches 90% of properties in 48 hours at 25 degrees celsius; smooth, thixotropic consistency for easy handling and sag; ideal for machine stamping and syringe dispensing applications; contains no dilutents or solvents to minimize formation of voids during cure; tough, flexible system which provides good temp cycle performance compared to rigid epoxy systems

Color:

Silver

Material:

Plastic epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
