**Specific Usage Design:**

Infusion process, injection, pultrusion

**Curing Method:**

Air dried

**Rated Drying Time:**

Between 0.5 hours and 4.0 hours

**Product Name:**

Resin, epikote

**Special Features:**

Application designed for (rmt, scrimp/vari) rotor blades for wind turbines, boat and shipbuilding, sports equipment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535p0
