Specific Usage Design:

Infusion process, injection, pultrusion

Curing Method:

Air dried

Rated Drying Time:

Between 0.5 hours and 4.0 hours

Product Name:

Resin, epikote

Special Features:

Application designed for (rmt, scrimp/vari) rotor blades for wind turbines, boat and shipbuilding, sports equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
