Physical Form:

Film

Curing Method:

Air dried or heat

Special Features:

Cure rate 90 minutes; cure temperature 250 degrees; length 50 linear yards; adhesive thickness 9.5 mils; width 36 inches

Color:

Red

Material:

Aluminum or resin epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
