240.0 degrees fahrenheit Physical Form: Solid
Solid
Quantity Within Each Unit Package:
18.9 liters
Specific Usage Design:
The adhesives are designed to be coated on the fasteners and dried; theyey remain dormant until the shearing action of engaging the
fastener into a nut or threaded cavity breaks the capsules and allows the adhesive to cure; solvent base: toluene; shelf life: fifteen months
from date of manufacture;
Curing Method:
Air dried
Rated Drying Time:
24.0 hours
Product Name:
Fastener adhesive
Color:
Blue
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A535p0
