Overall Height:

23.000 inches

Overall Width:

18.000 inches

Environmental Protection:

Antistatic treated and puncture resistant

Material And Location:

Plastic, polyethylene fifth wall

Opening Location:

Top

Product Name:

3m metal-out cushioned static sheilding bag 2021r

Special Features:

Open cell cushioning provides physical shock protection even when punctured; 5-layer construction; protects against triboelectric direct discharge and static fields

Style Designator:

Protective

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A11100
