Maximum Operating Pressure:

3000.0 pounds per square inch

Overall Height:

10.300 inches

Cross Section Outside Diameter:

4.280 inches

Specific Gas For Which Designed:

Air

Cylinder Style Designator:

Cylindrical type

Shatterproof Feature:

Included

Cylinder Style Designator:

3

Capacity Rating:

100.000 cubic inches

Neck Thread Location:

Internal

Neck Closure:

Not provided

Special Features:

1 5/16-12 un

Thread Size And Series/type Designator:

1 5/16-12 un

Fsc Application Data:

1. Pneumatic system, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T162-b
