Maximum Operating Pressure:

2015.0 pounds per square inch

Department Of Transportation Cylinder Identifying Number:

3aa1800

Overall Height:

26.750 inches

Cross Section Outside Diameter:

7.344 inches

Specific Gas For Which Designed:

Air

Cylinder Style Designator:

Cylindrical type

Shatterproof Feature:

Included

Cylinder Style Designator:

3

Interstate Commerce Commission Identifying Number/d:

3aa1800

Capacity Rating:

853.000 cubic inches

Neck Thread Location:

Internal

Neck Closure:

Not provided

Special Features:

1 anpt

Thread Size And Series/type Designator:

1 anpt

Fsc Application Data:

Truck, fire, crash, forcible-entry, type r-2a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T162-b
