Maximum Operating Pressure:

1800.0 pounds per square inch

Furnished Items:

Valve

Overall Height:

23.500 inches

Cross Section Outside Diameter:

6.938 inches

Specific Gas For Which Designed:

Oxygen

Shatterproof Feature:

Included

Capacity Rating:

646.000 cubic inches

Neck Thread Location:

Internal

Neck Closure:

Provided

Spec/std Controlling Agency:

Ms

Spec/std Identifying Number:

Ms22012 standard

Government Type Number:

Ms22012-2

Special Features:

Interstate commerce commission identifying number: 3aa1800

Thread Size And Series/type Designator:

1-11-1/2 anpt

Fsc Application Data:

Oxygen system, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T162-b
