

View Online at <https://aerobasegroup.com/nsn/8120-01-387-1044>

Special Features:

Color coded red per mil-std-101b; stenciled with monobromotrifluoromethane and "virgin or reclaimed material only" in two places on opposite sides of tank. Related nsns: filled cylinder 6830-01-387-1008 and gas only nsn 6830-386-1388

Supplementary Features:

Monobromotrifluoromethane dot 110a800w; 30.0 in. Od by 81.5 in. Lg; 1600 lb water capacity; 800 psig working pressure; two education tubes 0.5 in. Id; 2 each valve couplings and 6 each pressure relief coupling; thread 0.75 in. 14ngt; 2 each valves per superior valve co. Drawing 1214b1; 5 each fusible and 1 each spring load pressure relief devices with bonnet; head and shell material astm a-515 grade 70 carbon steel.

General Description:

Monobromotrifluoromethane dot 110a800w; 30.0 in. Od by 81.5 in. Lg; 1600 lb water capacity; 800 psig working pressure; two education tubes 0.5 in. Id; 2 each valve couplings and 6 each pressure relief coupling; thread 0.75 in. 14ngt; 2 each valves per superior valve co. Drawing 1214b1; 5 each fusible and 1 each spring load pressure relief devices with bonnet; head and shell material astm a-515 grade 70 carbon steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
