Hexafluoropropane Compressed Gas Cylinder - Page 1 of 2

View Online at https://aerobasegroup.com/nsn/8120-01-443-8137

Maximum Operating Pressure:
300.0 pounds per square inch
Furnished Items:
Valve
Department Of Transportation Cylinder Identifying Number:
4ba3000 or 4bw300
Overall Height:
49.000 inches
Cross Section Outside Diameter:
10.188 inches
Identification Designator:
Part number f20200006
Cylinder Style Designator:
Bottle type
Manufacturer Name:
Rotarex inc north america
Shatterproof Feature:
Not included
Part A Color Code:
Orange
Part B Color Code:
Orange
Part C Color Code:
Orange
Body Color Code:
Orange
Color Coded Gas Type:
Refrigerants
Capacity Rating:
150.000 pounds
Neck Thread Location:
Internal
Neck Closure:
Provided
Manufacturer Address:
Mount pleasant pa
Special Features:
Dual control dual port valve nsn 8120-01-204-0182 fitted with a 3/8 in i.D. Bby 46.0 in lg polypropylene eduction tube and clamp for use with
virgin or reclaimed product only
Thread Size And Series/type Designator:
3/4-14 ngt
Specification Data:

81348-rr-c-91011 government specification
