Maximum Operating Pressure:

4350.0 pounds per square inch

Department Of Transportation Cylinder Identifying Number:

Adot-e 10945

Specific Gas For Which Designed:

Air

Cylinder Style Designator:

Cylindrical type

Manufacturer Name:

Structural composites industries

Capacity Rating:

550.000 cubic inches

Neck Thread Location:

Internal

Product Name:

Envelope drawing wound pressure vessel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T162-b
