Maximum Operating Pressure:

70000.0 pounds per square inch

Furnished Items:

Plug

Department Of Transportation Cylinder Identifying Number:

3aa

Overall Height:

51.000 inches

Cross Section Outside Diameter:

9.000 inches

Specific Gas For Which Designed:

Nitrogen

Cylinder Style Designator:

Cylindrical type

Shatterproof Feature:

Included

Capacity Rating:

95.1 pounds

Neck Thread Location:

External

Neck Closure:

Provided

Product Name:

Cylinder, compressed gas: seamless, shatterproof, high pressure, dot 3aa steel

Special Features:

9 x 51 inch cyl w/flg and aa59860-066 vlv cap (empty)

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T162-b
