Body Material:

Brass

Outside Surface Treatment:

Chromate

Body Style:

Angle w/ offset give "adqm" and "adqn" only if flanged both ends

First End Connection Type:

Threaded external pipe

First End Flange Shape Style:

Round w/o bolt holes

Flow Control Device:

Piston, free type or piston, spring loaded

Flow Control Device Material:

Steel, corrosion resisting

Product Name:

Residual pressure back check valve

Special Features:

577 cga outlet, 55 - pressure relief device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
