Overall Length:

10.00 inches

Overall Width:

10.00 inches

Overall Thickness:

0.25 inches

Water Resistance Quality:

Not included

Water Absorbency Rating:

Not rated

Flame Resistant Feature:

Not included

Fungus Resistant Feature:

Not included

Special Features:

Antistatic capabilities. No degreasing or coating removal. Protects against: humidity, condensation, aggressive industrial atmospheres, dissimilar metal corrosion (galvanic corrosion), salt air, and residual impurities left after processing. Protection of ferrous, non-ferrous metals, and alloys: steel, copper, brass, aluminum, zinc, solder, silver, and printed circuit boards. Protection for overseas shipments.

Material:

Fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T125-e
