Overall Length:

27.125 inches

Overall Width:

13.625 inches

Maximum Weight Capacity:

2000.0 pounds

Assembly Method:

Nailed

Face Type:

Double

Double Face Reversibility:

Nonreversible

Face Construction:

Solid

Aircraft Rail System Mating Lip:

Not included

Platform Side Design:

Overhanging

Platformheight:

5.625 inches

Special Features:

Used for 155mm projectiles model numbers m101, m104, m105, m107, m107b2, m110, m110e1, m110, m110a1, m110a2, m116a1 m121, m121a1, m121a (e1), m122, m449 m449e1, m449a1(e2) , m485, m485a, m485a2, and xm631.

Material:

Wood

Material:

Wood

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T160-b
