Overall Length:

72.500 inches

Overall Height:

66.120 inches

Overall Width:

61.250 inches

End Application:

Lgm118a peacekeeper

Special Features:

Used to protect hot gas generator; protects against shock greater than 10g; temp over 126 degrees f and below -37deg f and humidity over 81 degrees f dew point; records shock input, extreme temperatures, excessive humidity; grounding provisions; cylinder shaped, includes isolation frame, hgg handling bars , shock recorder, two temp recorders, humidity indicator, grounding strap, weight 4000 lbs loaded, 2000 lbs unloaded

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-e
