Overall Height:

42.000 inches

Overall Diameter:

42.000 inches

Mounting Surface Plane:

Parallel

Window:

Not included

Accommodated Equipment Identifying Number:

Lgm-118a model no.

Special Features:

Container holds an inertial measurement unit that is 21 in. By 17 in.; container has a humidity indicator; four shock isolators; two desiccant holders with breather valve; a power cord compartment; a heating element; aluminum mounting plate and support ring; temperature and power indicators; lined with polyurethane foam cushioning; sets on two 4 in. By 4 in. Wooden skids

Material:

Aluminum

Shape:

Round

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-e
