End Application:

Turbo prop engine f414-ge-400

Special Features:

Aluminum alloys used are 6061-t4/t6, 5052-h34/h38 or 5454-h32; gasketed tongue-in-groove closure; quick opening over-center tension latches; 2 visual inspection ports; equipped with air fill valve and relief pressure valve

Material:

Aluminum and steel, corrosion resisting

Material:

Aluminum and stainless steel

Surface Treatment:

Passivate and cadmium

Surface Treatment:

Passivated and cadmium

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T358-e
