Overall Length:

30.349 inches

Mounting Surface Plane:

Parallel

End Application:

F-22 raptor

Window:

Not included

Product Name:

Storage case, printed circuit boards

Special Features:

Includes foam insert with 33 partition slots cut into it, has 2 side interior case compartments, used to hold printed circuit boards from the integrated avionics racks on f/a-22

Material:

Aluminum alloy, qq-a-250/11, alloy 6061

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, alloy 6061 federal specification single material response

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-e
