Overall Length:

36.000 inches

Overall Height:

20.460 inches

Overall Width:

29.000 inches

End Application:

C17 aircraft

Product Name:

Shipping and storage c17a aircraft

Special Features:

Case closures are mold-in as are the recessed areas for latches and handles; inner frame has aluminum retma rails with 10-32 clipnuts; unistrut channel behind the retma rail; service life 20 years; operation and storage temp range -65 to +165 degrees f; can withstand exposure to 100% humidity; solar radiation of 104 watts/sq ft; sand and dust particle concentration of 0.0005 grams/cubit ft w/40 mph wind; rainfall rate of 1.4 in per hour w/winds of 35 mph; winds up to 70 mph; chemical and biological agent exposure and resists corrosion

Material:

Plastic and fiberglass

Material:

Plastic and glass fiber

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-e
