Width:

38.000 inches

Thickness:

0.0100 inches

Trade Designation:

181 or 1581

Cloth Weight:

Not rated

Cloth Name:

Any acceptable

Impregnation Substance:

Epoxy resin

Special Features:

Volan a finish on cloth prior to impregnation and 35-45 pct by wt resin content and uncured; epoxy resin used for impregnation must be approved for curing in an auto-clave and approved for structural applications; refrigerated storage is required at 0 degree f or below

Fiber Material:

Glass basic

Color:

Natural both sides

Reference Number Differentiating Characteristics:

As differentiated by trade designation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21600
