Width:

60.000 inches

Thickness:

Not rated

Cloth Weight:

Not rated

Cloth Name:

Any acceptable

Impregnation Substance:

Bismaleimide

Special Features:

Hcloth impregnated, woven graphite fabric, bismaleimide resin, 60 inches wide min, used at temperatures from -65 to 450 f., used to fabricate structural laminates, roll may contain 45 to 55 yds, ms-531b

Fiber Material:

Graphite basic

Fiber Material Specification:

F650/f3t584 mfr ref single material response basic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21600
