Overall Length:

25.000 inches

Overall Width:

2.000 inches

Special Features:

Thickness-.25 inches; 8 lbs density, pcf; resistant to thermal shock and chemical attack; low thermal conductivity and heat storage; 2400 degrees f temperature rating; good acoustical characteristics; highly flexible; easily cut, fabricated and installed; 50 sf per carton; 1800 sf per pallet

Color:

White

Material:

Alumina and silica spun fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
