Special Features:

Material, made from acetal which is a crystalline thermoplastic polymer material, excellent tensile strength, stiffness, surface hardness and chemical resistance, ghiltex-an infrared signal reduction, intrinsic to the plastic itself and utilized in all usmc coyote buckles

Color:

Tan

Procurement Group Code:

29989

Special Test Features:

Color must = tan 500

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T372-g
