Overall Length:

162.000 inches

Overall Height:

75.000 inches

Overall Width:

86.000 inches

Special Features:

Includes electric power, heating and cooling, and shelter/accessory stowage in a hmmwv towable, air transportable package. Engine: 3 cylinder turbo charged diesel; generator output: 120/208 vac 3-phase 60hz derates to 35kw at 10,000 ft and 50 deg. Celcius; ecu capacity 96,000 btu/hr cooling (8-ton) 46,000 btu/hr heating; sys. Wght: 3,880 lbs w/o cargo; fuel cap: 55 gallons diesel, dl-1, dl-2, jp-5 and jp-8, tank designed to maintain trailer wt and tongue wt ratio as fuel is added; dimensions: 86"w x 75"h x 162"l (70 x 30in rear cargo deck, 56 x 12 in mid cargo deck); mobility certified hmmwv towable by marcor-syscom, usmc. Internal c-130, c-141 transportable. Natick certified for external ch-47 and ch-53 air transport; op. Environmt: -40 degrees fahrenheit to 125 degrees fahrenheit; less than 75 db at 25 ft; hot swappable; wheels interchangeable w/ hmmwv; 15 1/2" ground clearance; fuel consumption 2.8 gph at full load; automatic 10kw load banks

Procurement Group Code:

91725

Size Sequence Indicator:

000

General Description:

Olive drab color

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
