**End Application:**

8340-01-537-8740; bootwall system, green

**Special Features:**

A frame bootwall (fabric on a composite frame) consisting of one side connecting into the tent at a doorway and the other side accepts a collar. The collar is the actual connection to a specific vehicle; this creates a weather and light (for blackout conditions) tight connection between the drash tent and a vehicle

**Color:**

Green

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
