Garment Size:

Large

Special Features:

Wt tactical low loft jacket features abrasion resistant panels from the elbow to the cuff; extremely strong with plenty of stretch, this new style will allow you to get down on your elbows frequently w/o wearing through the sleeve; the body of the jacket is made of 70 denier textured nylon fabric, keeping the weight of the garment down w/o reducing protection from the elements; nylon rip stop lining is quilted to 2 oz primaloft? Synthetic insulation, keeping the wearer warm with less bulk; hand warmer pockets are sewn directly into seam for a clean-finished look; bicep pockets have 7" zippers for secure storage; shoulder seams are eliminated to reduce chafing, and the dropped tail covers the back; the back portion of the hem is elasticized to enhance fit and to prevent core-chilling wind from coming up through the hem
