Special Features:

Shelf Life:

Fiig: A217a0

Strap, chin, h-nape velcro l/xl left-hand with 3.5in gas mask extender pn e3t. Improves safety, comfort and stability of chinstraps used in mich/ach ballistic helmets. One handed, on-the-fly strap adjustment with no loose ends. Double padded, protective leather chin cup and floating nape pad. Adjustable while wearing helmet, without hanging loose ends. Strap geometry more stable than existing chinstraps. Extender adds 3.5in to the chinstrap for fastening over the mask.
