**Min. Tensile Strength (psi):**

1700 pounds per square inch and 1200 pounds per square inch

**Width:**

Between 19.812 inches and 20.188 inches

**Thickness:**

0.006 inches

**Length:**

Between 49.812 inches and 50.188 inches

**Material Transparency:**

Opaque

**Material:**

Plastic, polyethylene, l-p-378, type 1, grade b

**Material:**

Plastic polyethylene

**Material Specification:**

L-p-378, type 1, grade b federal specification 1st material response

**Specification Or Standard:**

1 class and 1 finish and b grade and i type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800

**Mil-std (military Standard):**

Mil-p-3803 spec.
