Maximum Sulphur Content Percentage By Weight:
0.0015
Fuel Grade Classification:
Aviation fuel
Viscosity At Rated Temp:
1.30 40 degrees celsius and 8.00 -20 degrees celsius
Minimum Flash Point And Test Method:
38.0 degrees celsius pensky-martens closed cup
Density Temp:
15.0 degrees celsius
Supply Classification:
Bulk
Special Features:
This nsn is applicable only to synthetic iso-paraffinic kerosene purchases
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A090a0
