Fuel Grade Classification:

Aviation fuel

Viscosity At Rated Temp:

1.30 40 degrees celsius and 8.00 -20 degrees celsius

Minimum Flash Point And Test Method:

60.0 degrees celsius pensky-martens closed cup

Density Temp:

15.0 degrees celsius

Supply Classification:

Bulk

Special Features:

Applicable only to synthetic iso-paraffinic kerosene purchases; blended synthetic jet fuel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A090a0
