Unit Package Type:

Any acceptable

Composition And Percentage:

99.5 by weight nitrogen

Special Features:

Total hydrocarbons 5 ppm maximum by volume as methane moisture 11.4 ppm maximum by volume of water vapor at 70 degrees f and 760 mm of mercury pressure /-75 degrees f dew point/ particle and fibers count-none allowed larger than 175 microns

Specification Or Standard:

2 type

Departure From Cited Designator:

As modified by replies to special features

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T095-c
