**Unit Package Type:**

Any acceptable

**Composition And Percentage:**

99.5 by weight nitrogen

**Special Features:**

Total hydrocarbons 5 ppm maximum by volume as methane moisture 11.4 ppm maximum by volume of water vapor at 70 degrees f and 760 mm of mercury pressure /-75 degrees f dew point/ particle and fibers count-none allowed larger than 175 microns

**Specification Or Standard:**

2 type

**Departure From Cited Designator:**

As modified by replies to special features

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T095-c
