Hydrazine Propellant - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/9135-01-372-9218

Composition And Percentage:

98.5 by weight hydrazine and 100.0 by weight hydrazine

Impurities Limitation In Percent:

Water 1.0 max, particulate 1.0 maxchloride 0.0005 max, aniline 0.50 max, iron 0.002 max, nonvolatile residue 0.005 max, carbon dioxide

0.003 max, other violatile material 0.02 max

Criticality Code Justification:

Bbrc and bbrf

Special Features:

Bulk.Any acceptable unit package

Specification Data:

81349-mil-p-26536 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T095-c
