Product Name:

Propellant, methane, liquid

Special Features:

Physical state: gaseous liquid; composition: methane percentage by volume: min 98.7; water ppm by volume: maximum 1; oxygen ppm by volume: maximum 1; nitrogen ppm by volume: maximum 5000; carbon dioxide ppm by volume: maximum 125; total inerts ppm by volume: maximum 5000; ethane ppm by volume: maximum 5000; propane ppm by volume: maximum 3000;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
