Minimum Cetane Classification Number:

51.0

Fuel Grade Classification:

Diesel, ultra-low sulfur

Viscosity At Rated Temp:

2.00 40 degrees celsius

Density Value:

Between 820.000 kilograms per cubic meter and 845.000 kilograms per cubic meter

Minimum Flash Point And Test Method:

55.0 degrees celsius pensky-martens closed cup

Density Temp:

15.0 degrees celsius

Supply Classification:

Bulk

Special Features:

This nsn applies only to european specification diesel purchased under the desc turkey coupons purchase program;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A090a0
