**Maximum Sulphur Content Percentage By Weight:**

15.0

**Fuel Grade Classification:**

Diesel, marine

**Product Name:**

Hydrotreated renewable marine diese (hr76)

**Special Features:**

Flash pt, oc min 60; density at 15.C, kg/l min 0.774, maximum 0.876; kinematic viscosity at 40 oc min 1.7, maximum 4.3; hydrotreated renewable f-7 (hr76) fuel c/o n-paraffins, iso-paraffins, cylcoparaffins and shall be produced solely from triglycerides and free fatty acids derived from algal oils

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A090a0
