Product Name:

Tolad 351 additive

Level Of Dermal Irritation Potential:

Moderate

Special Features:

State: liquid; color: dark brown; odor: aromatic hydrocarbon; flash point: 56.10 deg. C. Closed cup; products of combustion: carbon oxides; ph: 4.6 to 4.8; specific gravity: 0.914-0.926; vapor density: >1; viscosity: 122-135 cps; pour point: <-40.00 deg. C.; insoluble in water; incompatible with oxidizing materials; hazardous polymerization will not occur;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
