**Maximum Operating Temp:**

400.0 degrees fahrenheit

**Basic Ingredient:**

Graphite and silicone

**Quantity Within Each Unit Package:**

0.500 pints

**Effective Temperature Range Rating:**

+32.0/+400.0 degrees fahrenheit

**Special Features:**

General composition, molybdenum disulfide graphite, and other self-lubricating solids

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A41600
